Disclaimer:

The information contained in this Directory is compiled from the data received from the contributing institutes/ organizations and other resources. The objective of the directory is to list down all the institutes working in teacher education in the province and to provide information on teacher education programs being offered by these institutes. This does not necessarily mean that UNESCO/ USAID or Government of N-W.F.P. recognizes and/or accredits the institutes or endorses their training programmes.

This report has been made possible by the support of the American People through the United States Agency for International Development (USAID). The contents of this report are the sole responsibility of the Directorate of Curriculum and Teacher Education (DCTE) and do not necessarily reflect the views of USAID, the United States Government, and UNESCO.

ACKNOWLEDGMENT

The Directorate of Curriculum Development & Teacher Education (DCTE) is proud of its long association with UNESCO. We would like to express our highest appreciation to UNESCO and USAID for the generous financial and technical support for the STEP project under which the research, compilation and printing of this document became possible. We would like to acknowledge the valuable technical support provided by UNESCO representative Mr. Kamran Iftikhar Lone, Provincial Coordinator STEP NWFP, for providing technical assistance in completing this task.

This report is the result of the collective efforts of the UNESCO, DCTE staff and Mr. Sajjad Hussain who put together their intellectual capacities and carved out time to contribute in compiling this document. From DCTE, we would particularly like to acknowledge and congratulate Mr. Attaullah Khan (Former Director DCTE under whom the process was initiated), focal Person Mr. Syed Amjad Ali, Mr. Abdus Salam and Mr. Alamgir, and all the Principals of RITEs for their assistance in finalizing the directory. We would also like to thank all the institutions who contributed in providing the required information.

The DCTE would like to thank those who had given their support and made contribution in the development of this directory.

MESSAGE

Sardar Hussain Babak
Minister for Elementary & Secondary Education Department
Government of N.W.F.P.

Pakistan's social and economic development depends on the quality and productivity of its human resources. Human resource development in turn needs high quality of education, be it at the school or college level, general or professional, and vocational or technical. Both the federal and provincial governments stand strongly committed to education as their top most social sector priority.

As we all acknowledge, the teacher plays the most pivotal role in determining the quality of education that is being imparted in educational institutions. It is therefore important that our teachers are well trained and their training needs are met on continuous basis as new trends emerge in the educational sector. All teacher training institutes therefore have this major responsibility to ensure that teacher training needs are assessed and met continuously.

In this context, the "Directory of Teacher Training / Education Institutes in N-W.F.P" developed by the Directorate of Curriculum & Teacher Training under the STEP programme is one of its kind. It provides information on private and public institutions offering teacher training at different levels and in different disciplines. The Directory will be extremely useful for planning and implementation of teacher training programmes in future.

I would like to thank UNESCO and USAID for supporting the STEP programme under which this directory was compiled.

MESSAGE

Muhammad Arifeen
Secretary Elementary & Secondary Education Department
Government N.W.F.P.

Global atmosphere is changing very rapidly. The dimension and quantum of scientific knowledge shoulder the responsibility on the resource institutions to provide the best possible professional training for the pre-service and in-service teachers which is helpful to re-shape their attitudes, remodel their habits and in a way to reconstitute their personality as a teacher. To meet these challenges the Directorate of Curriculum & Teachers Education, N-W.F.P under STEP Programme took a courageous/daring endeavour to compile a directory, containing some basic information/data regarding the educational institutions, both in private as well as public sector in N-W.F.P. This information has been collected from the concerned institutions and reshaped in a directory form. This valuable effort minimizes the evils of the “hit and miss” process and will save time and energy of the teacher and the taught. The information now available in a computer database and the directory reflects the most pertinent data that will be extremely useful to the Directorate of Curriculum & Teachers Education, N-W.F.P and all other stake holders for planning and implementation of training programme in future.

Education is considered to be the responsibility of the provinces but to provide national cohesion, integration and to establish parity of Education in the provinces, the directory provides concise information on available resource institutions in the province to the Federal Govt. and donor agencies as well.

I would like to congratulate Directorate of Curriculum & Teachers Education, N-W.F.P, Abbottabad on publishing the directory and acknowledge, the technical and financial support of UNESCO & USAID in this regard.

MESSAGE

Professor Muhammad Pervaiz Khan
Director DCTE

The partnership with UNESCO-USAID under the STEP Programme has been a mutually rewarding and enriching experience. Several new initiatives have been taken under the programme for the first time. As the Director of DCTE, I would like to acknowledge the technical and financial support which provided opportunities to DCTE to document and expand its work.

With the publication of the “Directory of Teacher Training / Education Institutes in N-W.F.P”, the DCTE has achieved an important milestone. We now have a fairly reliable information base on institutes engaged in teacher education in the province. The directory tells us the different types and duration of courses offered, number of current and potential beneficiary teachers, technical capacity of the institutes and other information useful for planning future teacher training programmes. The directory can be extremely useful for other organizations and agencies which are on the lookout for potential partners for teacher training in the province. It is a comforting thought that the information is available with DCTE in a computerized database format and it can be regularly updated.

This is the first effort made by DCTE in collecting such type of information at provincial level. We observed that during the exercise few institutions could not provide their information. We hope that in 2009 during updating of all the remaining institutes left out in this directory will also participate and provide their information.

I wish to thank Mr. Sajjad Husaain who worked hard to collate and compile the entire data, collaborating DCTE staff, instructors of RITEs and all the institutes which graciously provided the data for the directory. I am grateful for the support provided by UNESCO-USAID and especially Mr. Kamran Iftikhar Lone for his valuable technical input in developing tools and techniques for collecting the information and ensuring that the directory was completed and published in time.

Strengthening Teacher Education in Pakistan (STEP) Project

This document was prepared under the UNESCO project “Strengthening Teacher Education in Pakistan (STEP)” funded by USAID. The project strives for the enhancement of the Government’s capacity to assure quality teacher education by improving policy framework, coordination and standard-setting in order to bring about long term changes. The principal objective of the project stated in the original proposal is “to improve the quality and professional development of teachers and teacher training institutions through the development of a strategic framework for 1) policy formulation and dialogue with a view to building consensus and mobilizing support for teacher education, 2) effective coordination of interventions in teacher education, including field based teacher education activities, and 3) standard setting for teacher certification and accreditation.”

The project takes a holistic and unique approach. The project has partnership with all the key government teacher education bodies which have mandates in relation to teacher education curriculum and coordination both at the Federal and Provincial level, aiming to improve coherence and coordination of teacher education system as well as to support each of them to develop its capacity to assure quality teacher education.

DCTE-NWFP is one of the counterpart institutions of the STEP project, STEP activities with DCTE includes;

- Documenting DCTE’s research material, training and research work to strengthen knowledge base.
- Creating awareness on teacher status in NWFP by highlighting their role in society’s development through promoting positive images of best performing teachers in advocacy seminars and through distribution of posters and banners.
- Improving coordination in teacher education in NWFP by organizing regular meeting of key teacher education stakeholders.
- Supporting teacher’s networks to prove a platform for experience sharing and professional development
- Developing a directory of teacher training institutes both in public and private sectors in NWFP
- Support/strengthen library and resource center in DCTE

INTRODUCTION

This directory contains information about the teacher training institutes in N-W.F.P, both in public & private sector. It includes Universities' Institute for Education & Research (I.E.R) and public as well as private institutes offering various degrees, courses or certificates in teacher education. The information encompasses contacts, courses offered, basic facilities and current enrollment in these institutes. It also records information about the physical infrastructure i.e number of classrooms, status of playground, laboratory, library, computer lab and hall. This also contains information regarding these facilities are functional or not.

A database is maintained at DCTE which records detail information about each institute like faculty information (Professor/Instructor name, his/her professional and academic qualification, teaching/training experience and contact details). This document will serve a complete source of information for Government departments, educators, trainees and Non-Governmental Organizations.

Part I: of the directory provides summary information about institutes, district-wise, gender-wise, sector wise (Government & Private) and courses offered in these institutions. It includes summary table to facilitate the search of institute by course offered. Each institute is referenced by a page number which enables the reader to view the details of that particular institute.

Part II: enlists detailed information about all the institutes in alphabetical order. It includes the address, contacts (phone no, email address, website address), sector, institute type and courses offered.

DCTE tried its best to collect information about all institutes, but still there were few institutes especially in private sector who hesitated to provide information. Therefore in this first edition of Directory, there may be some institute which could not be included in it. It is expected that in 2nd edition the rest of the institutes will also realize the importance of this effort and will provide the data excitedly. In this connection a blank form has been provided at the end of the directory. Institutes willing to participate can fill out the form and send to Deputy Director DCTE.

The institutions who want to update their information provided in this edition can also use the same form. All these information will be compiled in next edition.

This directory is published in collaboration with UNESCO under STEP-USAID project.

EXECUTIVE SUMMARY

N-W.F.P has a total of 83 teacher education institutes of which 33% (28 institutes) are managed by the public sector and the rest by the private sector. Considering the conservative social environment, it comes as a welcome surprise that no less than 71% of the institutes are co-ed while the rest are gender segregated with women institutes outnumbering the men institutes.

Three of the institutes offer PhD, five offer M.Phil and 35 offer M.Ed in Teacher Education. Most of the institutes offer B.Ed while CT and PTC programs are also offered. Some of the institutes organize short courses in pedagogy, subject content training and IT.

According to the information provided by the institutes the enrollment during 2008 was: Phd in education 13 (M 8, F 1), M.Phil 66 (M 39, F 19), M.Ed 605 (M 242, F 314), B.Ed. 2298 (M 1042, F 1135), D.Ed 675 (M 240, F 435), M.Sc H.PE 186 (M 92, F 94), S.D.PE 196 (M 118, F 78), J.D.PE 582 (M 312, F 270), D.M 595 (M 247, F 348), C.T. Agro Tech 23, P.T.C 251 (M 47, F 204), C.T 58 (M 8, F 50), B.L.SC 17 (M 11, F 6). The average percentage of male & female is 45% & 55% respectively.

Predictably, Peshawar has the highest number of institutes i.e. 14; 5 in the government sector and 9 in the private sector. Mardan follows with eight institutes while Kohat and Malakand boast of seven each. Abbotabad with six and Bannu, DIK, Karak, Swabi and Swat with five institutes each depict those districts where teacher education and training institutes are concentrated.

In contrast there is not a single teacher education institute in seven districts: Batagram, Buner, Dir Upper, Hangu, Kohistan, Shangla, and Tank. A comparison with the literacy maps given in the directory clearly indicates that these seven districts have the lowest literacy rates in the province. Any future establishment of teacher training institute may need to take this fact into account. The private sector may also find this helpful in establishing additional branches and thus improving the out reach of the candidates in these deprived districts. Ultimately the quality of education is determined by the quality of teaching and all teacher training institutes have the mandate to fulfill their responsibility in this regard.

The directory will help all education policy makers, planners and managers in developing practical action plans to enable Pakistan to reach the goal of quality education for all by 2015.

Part - I
